

Abstract

“In today’s academic landscape, students often struggle with limited access to mentorship, scattered resources, and the absence of a strong support network. SENECT addresses these issues by creating a centralized platform where students can connect with alumni to receive personalized guidance, access career development tools, and participate in vibrant online communities. By integrating one-on-one mentorship opportunities, professional networking, and community-building features, SENECT empowers users to share knowledge, build relationships, and thrive academically and professionally. Designed with a user-friendly interface and scalable infrastructure, this platform aligns with the needs of modern learners and alumni, fostering lifelong connections and collaborations.”

Introduction

“University life is a period of growth, but students often face challenges such as limited access to mentorship, scattered career resources, and the absence of a strong support network. Alumni, a vital source of knowledge and experience, are frequently underutilized due to the lack of platforms fostering meaningful connections. Existing solutions often focus on event updates or general networking, failing to provide sustained mentorship and personalized guidance.

SENECT is a comprehensive platform designed to address these gaps by connecting students with alumni for mentorship, career guidance, and community-building. By offering features like one-on-one mentorship, career tools, discussion forums, and event hosting, SENECT ensures students receive the support they need to excel academically and professionally. Alumni benefit from the opportunity to engage with their alma mater and contribute to the success of current students.”

Objectives

- **Facilitate One-on-One Mentorship** : Connect students with alumni for personalized academic and career guidance.
- **Centralize Access to Resources** : Provide a single platform for academic materials, career advice, and networking tools.
- **Build a Strong Networking Ecosystem** : Foster collaborative connections among students and alumni through forums and events.
- **Support Career Development** : Equip students with career tools like job postings, LinkedIn integration, and interview preparation.
- **Enhance Community Engagement** : Promote participation in events, reunions, and discussions to strengthen university ties.

Methodology

“The development of SENECT involves a user-centric approach to ensure it meets the needs of its target audience. The platform is built using modern technologies to guarantee efficiency and scalability. The front-end is developed using HTML, CSS, and JavaScript to create a user-friendly interface that is visually appealing and responsive. For the back-end, Node.js with Express.js is employed, allowing seamless communication between users and the platform. Firebase is used for real-time data storage and retrieval, ensuring the reliability and scalability of the platform's database. SENECT incorporates features like mentorship programs for personalized guidance, career development tools for job search and professional growth, and community-building components such as forums and event hosting.”

Results

“SENECT is expected to significantly impact the university experience by enhancing academic and professional outcomes for students. The mentorship programs will provide students with personalized guidance, leading to better academic performance and career readiness. Alumni engagement will strengthen the university's community, fostering a sense of belonging among users. Students will gain streamlined access to career and academic resources, enabling them to achieve their goals efficiently. Overall, SENECT will bridge the gap between students and alumni, creating an interconnected ecosystem that benefits both groups.”

Conclusion

“SENECT is a groundbreaking initiative aimed at transforming the student experience by fostering meaningful connections with alumni. By addressing the limitations of existing platforms and incorporating innovative features, SENECT emerges as a vital tool for mentorship, career development, and community building. It not only enhances the university experience but also ensures that both students and alumni remain connected and supported throughout their academic and professional journeys.”

Acknowledgement

“We express our sincere gratitude to our supervisor, Prof. Kapil Sahu, for her invaluable guidance and support. We also thank Prof. Monika Choudhary, project coordinator, for their helpful suggestions. Special thanks to Dr. Prashant Lakkadwala, Head of the Department of Information Technology, for his support. We are grateful to the faculty and staff of the Department of Information Technology at Acropolis Institute of Technology And Research, as well as our families, for their unwavering encouragement throughout this project.”
